CALLING-UP FOR COMPETITION

KEYWORD CLIMATE CHANGE

A recurring, sometimes controversial debate. For some, climate change has always existed, others even call it a crisis and others completely deny it. There are new headlines every day about the consequences of climate change in different places of the world. However, the effects of climate change cannot be felt equally everywhere in the world.

AND NOW IT'S YOUR TURN!

WHAT DOES CLIMATE CHANGE MEAN FOR YOU IN YOUR REGION? WHAT ARE THE CONSEQUENCES OF CLIMATE CHANGE AT YOUR OWN "DOORSTEP"? WHAT HAS CHANGED AND SINCE WHEN?

These changes can be consequences for your everyday life, your living environment and your health, the availability of certain resources and food as well as the variety of plant and animal species.

OPTIONS FOR SUBMISSION

→ **ARTICLES**

→ **PHOTOS, PHOTO SERIES, COLLAGES, GRAPHICS, CARICATURES**
